

Prepare for Midterm Exam

Please read the following information before beginning the midterm exam:

- Questions for the exam will come from the module introductions and guided readings. Although many of the guided reading assignments only ask you to talk about one or two of the readings, you are responsible for reading all of the readings listed and questions may come from any of them. Though you can have these resources available to consult while completing your quiz, you will not have time to look up the answer to each question.
- Each exam (midterm and final) will consist of 25 questions. Each exam is worth 25 points. So, each question is worth one point, or 4% of your exam score.
- You will have one hour to complete this exam. If you need more time, you can email me before you start the exam (showing evidence that you read this prepare guide) to earn a free extra 15 minutes. If you require additional time for a documented reason, please have the appropriate agency on campus contact me before you begin the exam.
- You will have two attempts on the exam. Your scores will AVERAGE. If you receive a score of 10 on your first attempt and a score of 20 on your second attempt, then your final score for the exam will be a 15.
- If you run into any technical difficulties with the exam not working properly, promptly contact me. I will check on the issue and respond back as soon as possible.

Here is a [quick video overview](#)
